

CONFLICT MINERALS COMPLIANCE STATEMENT

September 3, 2026

Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act and related U.S. Securities and Exchange Commission rules address the sourcing of tin, tantalum, tungsten, and gold (collectively, 3TG) from the Democratic Republic of Congo and adjoining countries, commonly referred to as Covered Countries.

Double HH Manufacturing is a privately held company and is not independently required to file an annual conflict minerals disclosure. We understand, however, that many of our customers have reporting obligations and rely on information provided by companies within their supply chains.

Double HH supports responsible mineral sourcing and does not knowingly source materials that finance armed conflict or contribute to serious human rights abuses. We expect our suppliers to comply with applicable laws and to provide accurate and current sourcing information when requested.

As part of our reasonable supply-chain due diligence, Double HH requests Conflict Minerals Reporting Templates (CMRTs) or equivalent declarations from relevant suppliers. We review the information received, evaluate supplier responses, and consolidate applicable smelter and refiner information into our company-level CMRT.

Double HH's conflict minerals reporting is based on information provided by suppliers and other supply-chain sources. Due to the complexity of the supply chain, Double HH cannot independently verify the original source of every mineral. We will continue working with our suppliers to obtain current information and support responsible sourcing practices.

Double HH will continue to work with its suppliers, review newly received information, and update its CMRT and this statement as appropriate. Our current company-level CMRT is available to customers upon request.

Double HH Manufacturing/Division of Hope Haven Inc.
